PROFESSIONAL SUMMARY

Hands-on AI developer and automation architect building production agent systems, data pipelines, and orchestration workflows. Specialising in the Model Context Protocol (MCP), multi-agent frameworks, and end-to-end AI integration for clients in marketing, cybersecurity, and frontier technology. Background in technical communications brings clear documentation, effective stakeholder alignment, and the ability to bridge engineering and business teams. Principal consultant at Carrot Cake AI, offering planning and execution of agentic AI pipelines and workflows.

CORE COMPETENCIES

AI & AGENT DEVELOPMENT

- Multi-Agent Orchestration (CrewAI, LangChain)
- RAG Architecture & Vector Search
- MCP Server Design & Integration
- Prompt Engineering & Optimization

AUTOMATION & INFRASTRUCTURE

- Workflow Automation (n8n, custom pipelines)
- Cloud Deployment (GCP, Docker, Kubernetes)
- CI/CD & DevOps (GitHub Actions, Linux)
- API Integration & Data Pipelines

PROFESSIONAL EXPERIENCE

Carrot Cake AI / DSR Holdings Jerusalem, Israel

2015 – Present

Founder & Principal Consultant

AI consultancy specialising in agentic AI pipelines, workflow automation, and MCP integrations

- ▶ Build and deploy multi-agent orchestration systems using CrewAI, LangChain, and custom Python frameworks — from design through production
- ▶ Develop MCP servers and integrations connecting LLM-based agents with enterprise databases, APIs, and internal tools
- ▶ Engineer RAG pipelines with vector search, embedding optimisation, and retrieval strategies for domain-specific knowledge bases
- ▶ Design end-to-end automation workflows in n8n and custom code, replacing manual processes for clients in marketing, cybersecurity, and technology
- ▶ Plan and execute agentic AI rollouts: scoping requirements, building systems, deploying to production, and providing ongoing maintenance

Sir Ronald Cohen Israel & Remote

2022 – 2026

Communications Manager

Office of Sir Ronald Cohen — global pioneer in impact investing, venture capital, and social finance

- ▶ Directed strategic communications for one of the world's foremost impact investing thought leaders
- ▶ Coordinated cross-organisational initiatives with the International Foundation for Valuing Impacts (IFVI) and the Global Steering Group for Impact Investment (GSG)
- ▶ Developed and executed multi-platform content strategies reaching global institutional stakeholders
- ▶ Managed high-profile media relationships and orchestrated communications for international events and publications

Ayyeka Jerusalem, Israel

2017 – 2018

Marketing Communications Manager

Industrial IoT company providing smart infrastructure monitoring for utilities and governments

- ▶ Authored technical white papers on LPWAN, LoRa, and IoT infrastructure protocols for enterprise and government audiences
- ▶ Built and maintained the company's Confluence knowledge base, establishing documentation standards across engineering and product teams
- ▶ Created product marketing collateral and technical content driving enterprise sales pipeline

Assistant Account Executive

Global integrated marketing and PR agency with technology sector focus

- ▶ Executed media relations strategies for high-growth technology sector clients
- ▶ Produced content for multi-channel PR campaigns and strategic client communications

Marketing Communications Manager

Political technology SaaS platform for voter outreach and canvassing operations

- ▶ Spearheaded content strategy and go-to-market materials for a fast-growing SaaS platform
- ▶ Orchestrated digital marketing campaigns for political and civic engagement clients

EDUCATION

MA **Political Journalism** 2010 – 2011
City University London

BCL **Law** 2006 – 2009
University College Cork
